

Light Social DEX-VIPSWAP Tutorial

To download and configure MetaMask for the INT network

<https://intchain.io/guidelines/INT-mapping-guide-4.0-EN.pdf>

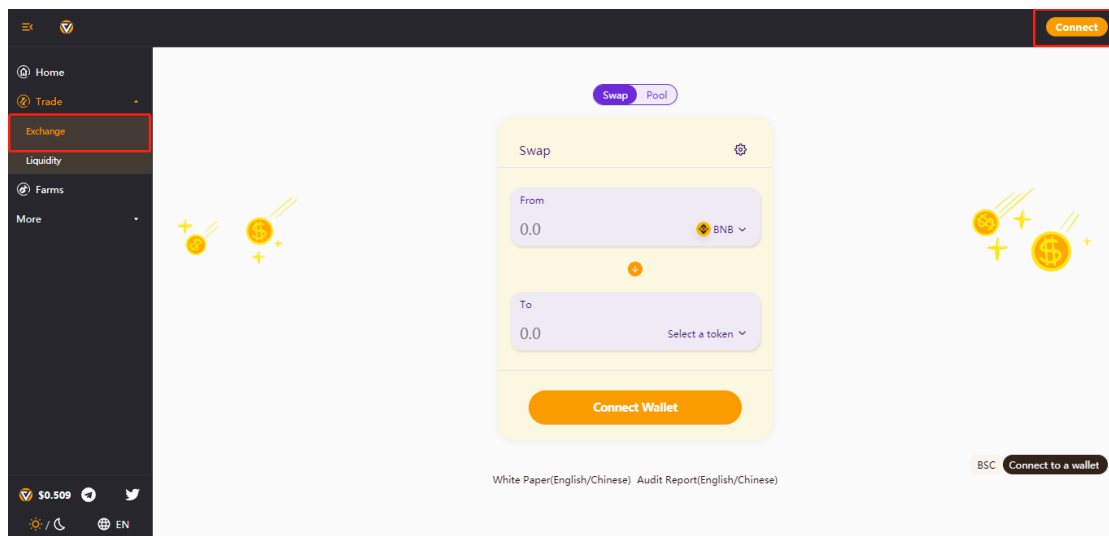

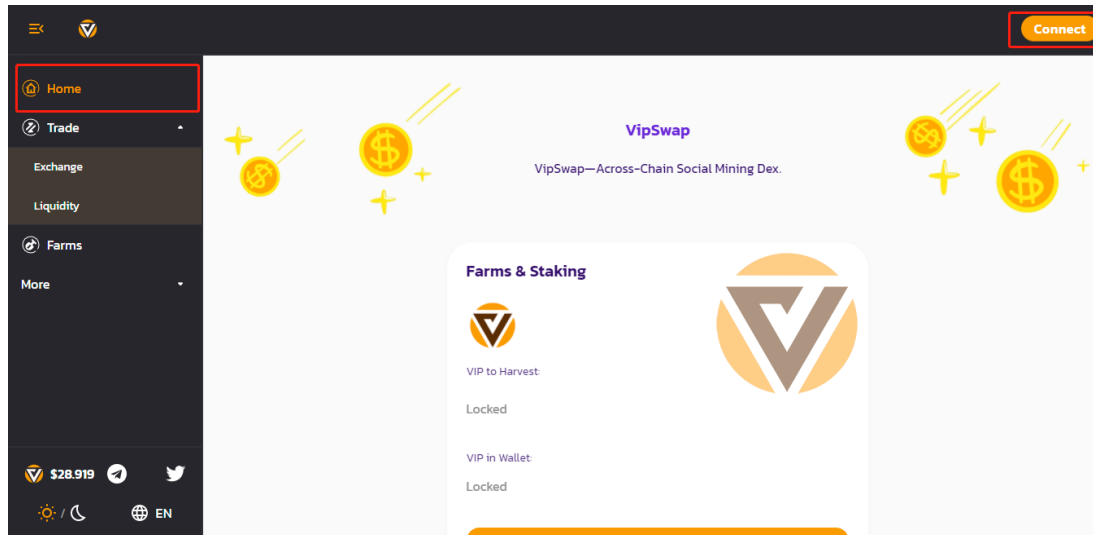

VIP contract address:

0xe87bbed21f342262498f28790ddc11c7bab5efea

Note: Before using VIPSWAP (INT chain), please leave enough INT in your wallet for GASFee (50 INT recommended).

I. Connect wallet

You need to connect your wallet by clicking "Connect" button in the top right corner of the "Home" and "Exchange" pages.

And check your connection status and connection account in MetaMask.

INT 4.0 

 Connected

Account 106
0xFB5B...fa10 

exchange.vipswap.org 

You have 2 accounts connected to this site.

 Account 106 (...fa10) Active 

 40 (...5ccd)
[Switch to this account](#) 

Permissions 

 1.740445672026... VIP 

2. Swap token (or buy token)

On the "Exchange" page, select the token, enter the amount of tokens you want to swap and click "Swap".

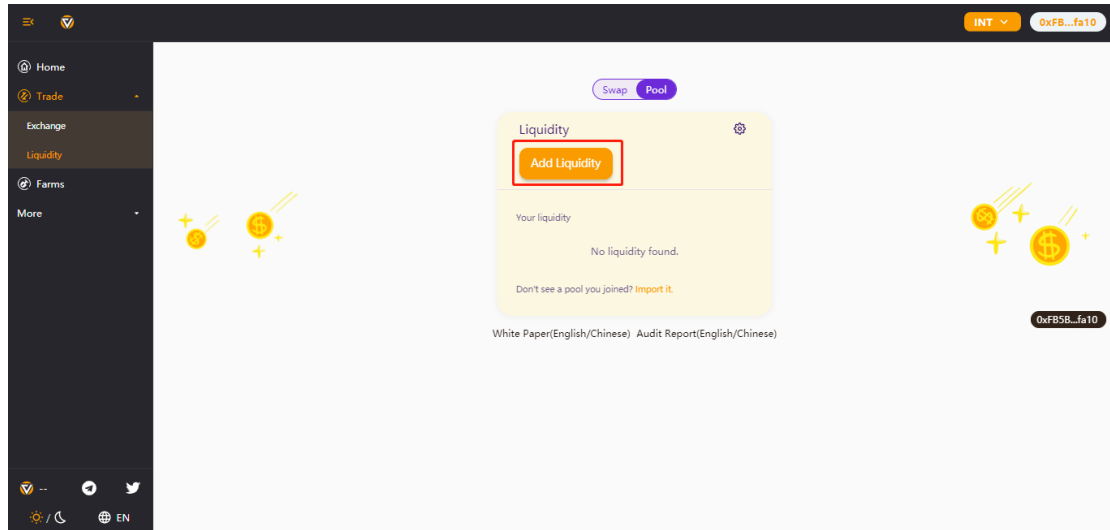

The token list in the VIPSWAP (INT chain) is not complete at the moment, so we can use the token's contract address to search for tokens.

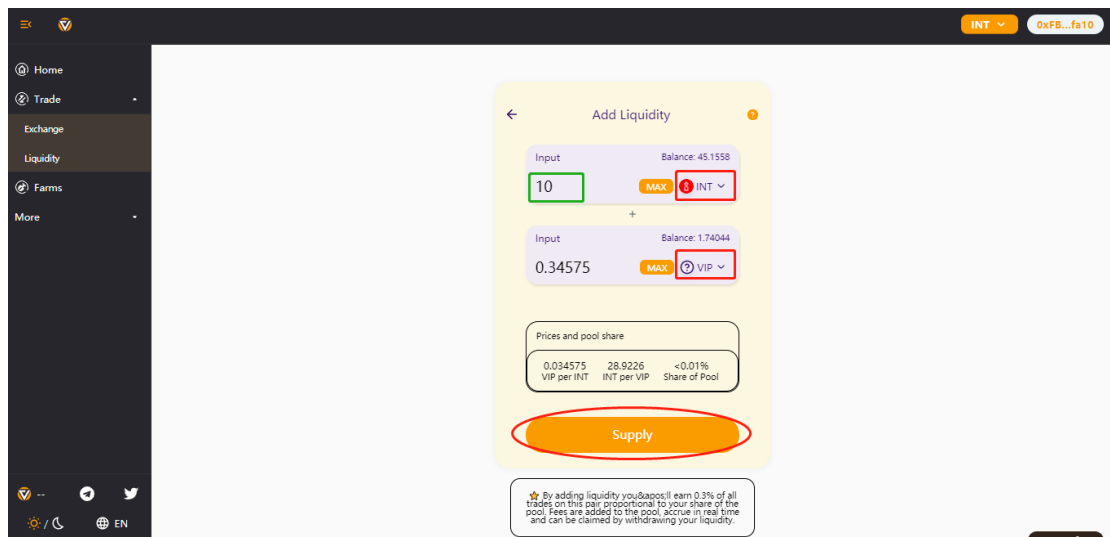

3. Add liquidity

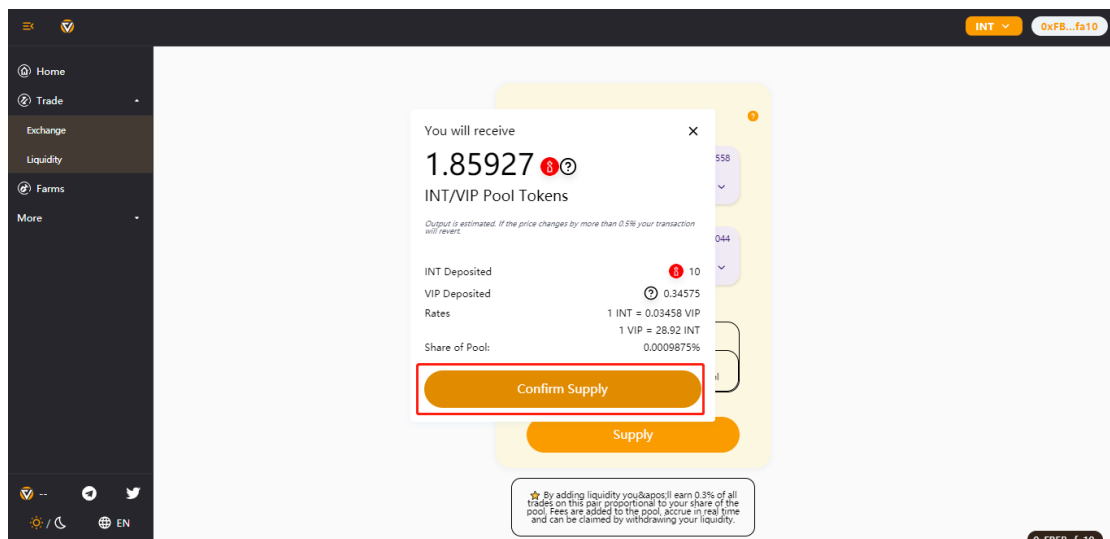

After making sure you have enough 2 kind of tokens (e.g. VIP and INT) in your wallet, go to the "Liquidity" page and click "Add Liquidity".

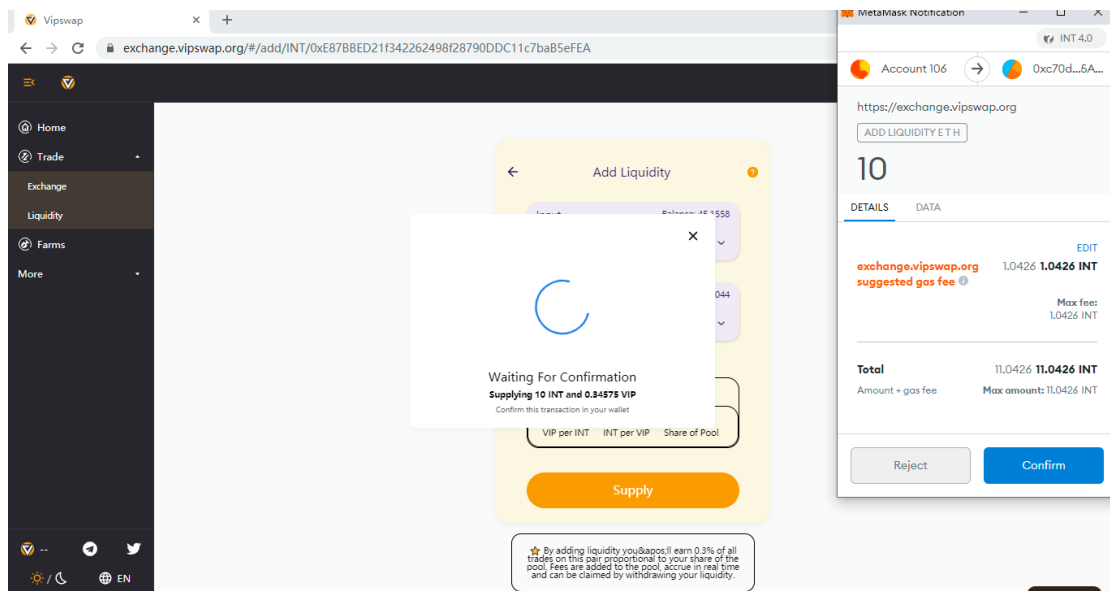

Select 2 kind of tokens, enter the amount of one of the tokens (cannot exceed the balance minus the fee) and click "supply".

When the new pop-up box appears, click "Confirm Supply".

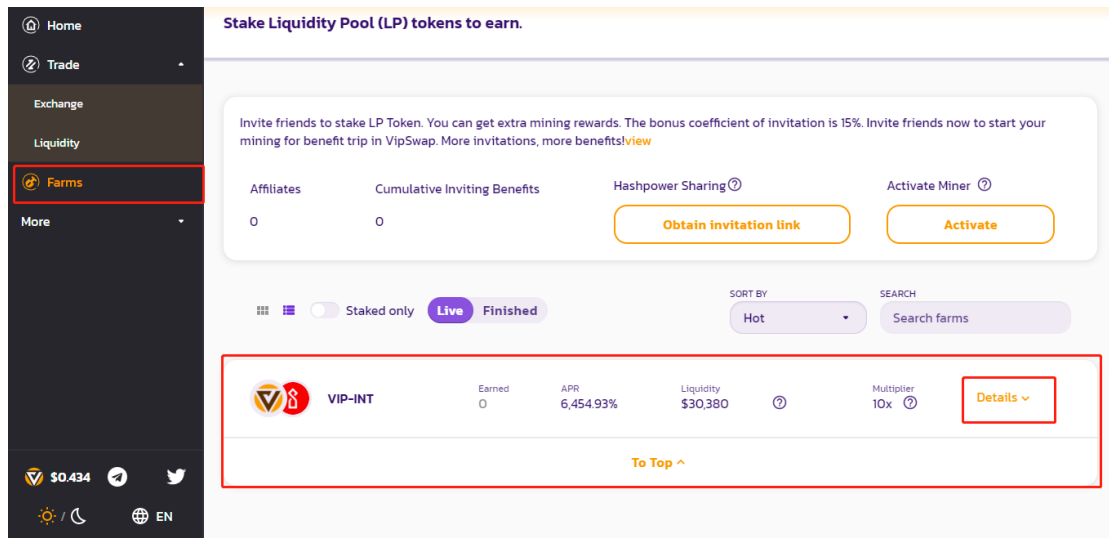

Click "Confirm" and wait for the pending to finish, then the liquidity is successfully added.

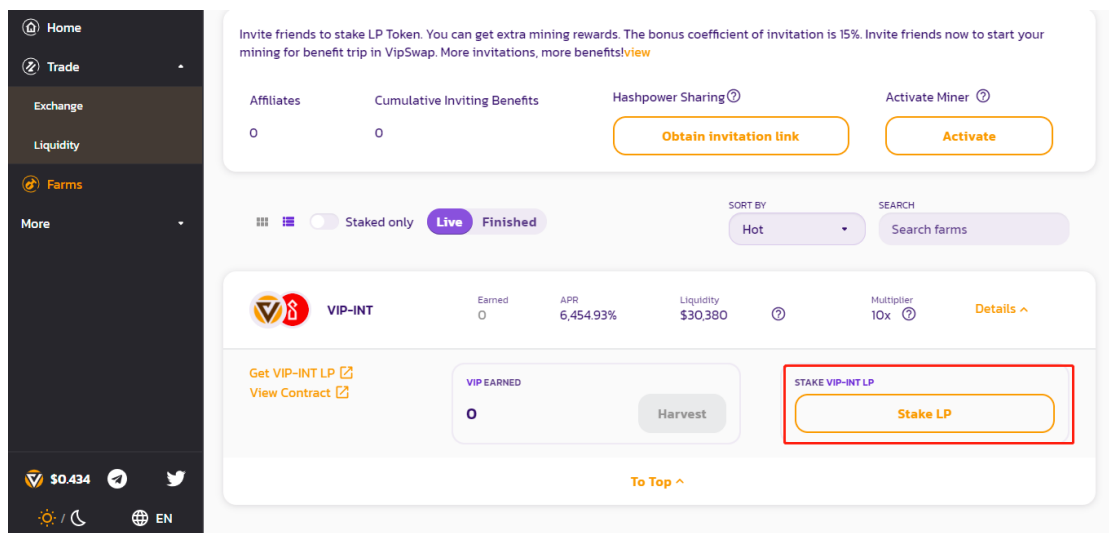

4. Stake LP to mining

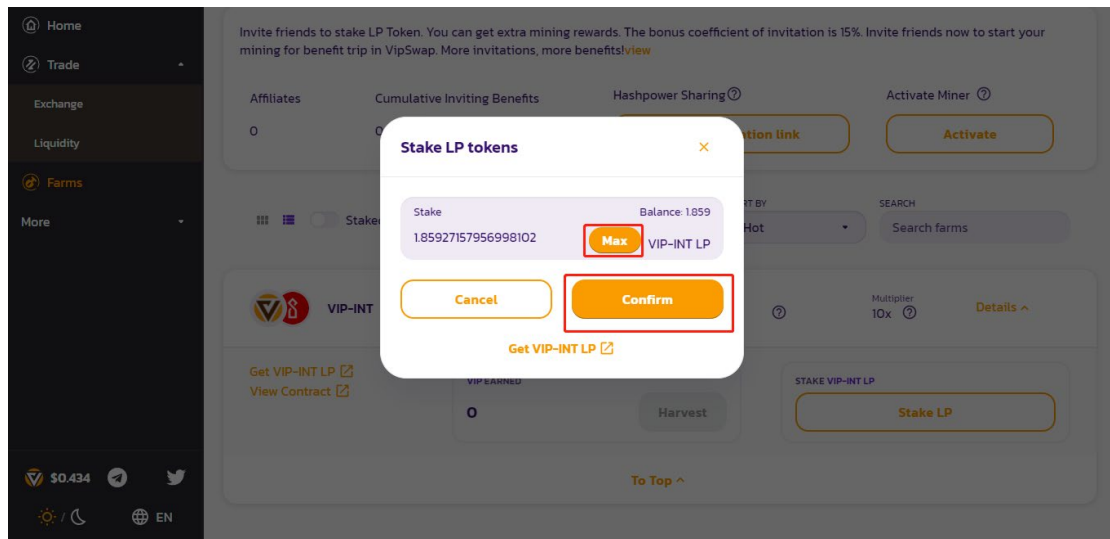

There are LP pools in Farms page, click "Details"

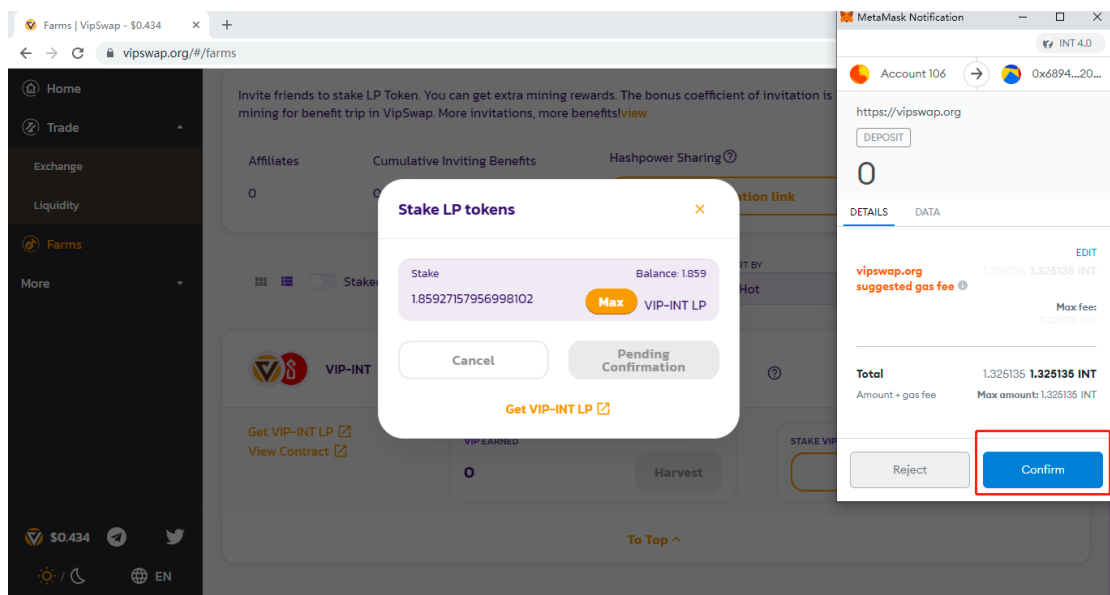

Click "Stake LP"

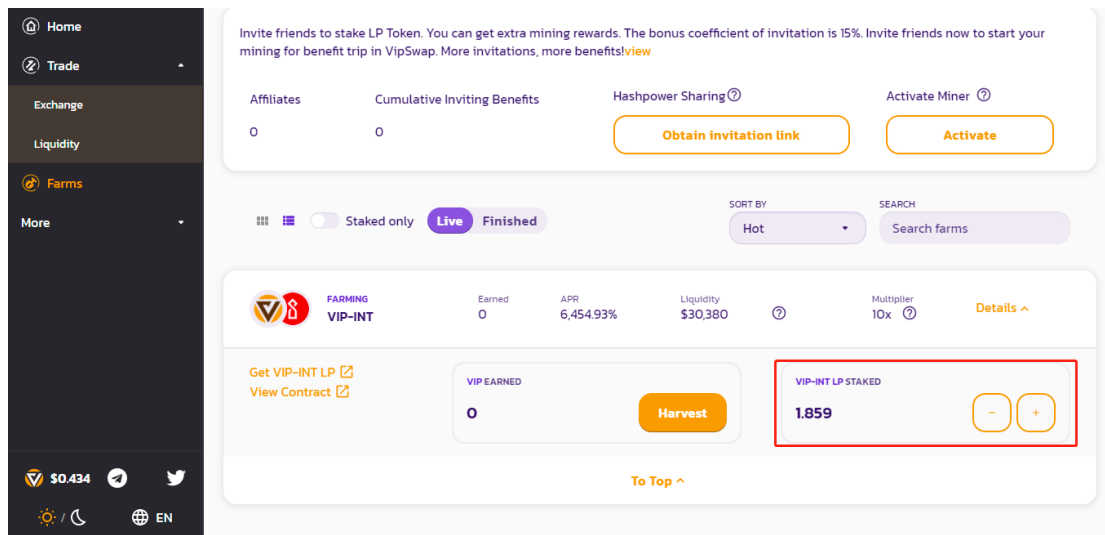

Click "MAX" in the pop-up box and then click "Confirm"

Click "Confirm" and wait for the pending to finish.

Then, you can see the amount of LP you have staked.

Back to the home page, you can check your mining progress at any time.
